

discuss more about these activities when we are there to see if we can get any special rates and/or if anyone is interested.

PAINTING AND SKETCHING

This trip is not really set up for Plein Aire painting. However, if it's something you really want to do, you can do it around camp either during lunch break or by not going on a game drive. We will be able to go to the Boma's where several different animals are, including Sudan the last remaining male rhino. We will actually be able to pet him!!! So if you are so inclined bring your sketchbooks/ journals to do a bit of sketching. I know we will go once, not sure if we will go multiple times. Many times I make quick notes, and or look at the screen on the back of my camera at lunch or at night to do some sketching from the day, but I generally spend my time photographing.

SOUVENIRS

I'm sure you will want to get some things to bring back to remember your trip by.

East Africa is known for their wonderful wood carvings, soap stone carvings and their intricate bead work jewelry among other things. We will be going to Nanyuki - a town about 45 minutes away one day. Here is where the equator crosses and you can watch how a match stick spins one direction on one side of the equator, and then step over the line and watch it spin the other. At that location are stalls where locals sell their wares. I'm sure that Sweetwaters will have a great gift shop as well.
