## **LANGUAGE**

You won't have any trouble making yourself understood or understanding the people (of course they do have an accent, as do you, so speak slowly and listen carefully). There are two official languages in Tanzania - English and Swahili. Almost everyone we come into contact with speaks three languages fluently - English, Swahili and their own tribal language! There is no need to try to learn Swahili - however, the locals enjoy it when you do speak it to them. Following are a few common phrases and words:

Hello	Jambo
Good bye	Kwaheri
Please	Tafadhali
Thank you	Asanti
Thank you very much	Asanti Sana
You are welcome	Karibu
No	Hapana
Yes	Ndiyo

## **FOOD AND BEVERAGES**

### **WATER**

**DO NOT drink ANY water EXCEPT bottled water. This includes brushing your teeth - don't rinse the toothbrush in the water from the sink. While it won't give you something terrible like Cholera - it is not something our digestive systems have the gut bacteria to handle so you will get sick. It's difficult to remember this when you are in a high end lodge but it really is important.**

**Two bottled waters are free in the safari vehicles on game drives and we will buy extras you can buy from us cheaper than the lodge offers. There usually two bottles of water per day in your tent. At meals we will order and pay for a large bottles of water for everyone to use.**
