

Travel Alarm/ SMART PHONE

We leave “wakeup calls” at the camps in the evenings and usually in the smaller camps like where we are staying there is no problem, but the larger camps and lodges such as the one at the crater sometimes can’t be relied on so you might want to bring a travel alarm of some sort. Smart phones work well for this - and they are SUPER handy to use to take photos in camp, of other passengers in the vehicle etc. Just be sure to remember the cord!!

Washcloth

There are towels everywhere we stay, but many places don’t have washcloths - it’s sort of an “American” thing evidently!

PASSPORT, MONEY, CREDIT CARDS ETC.

Valid passport

With 3 blank pages and current for 6 months after departure.

Photo copy of passport

Have a photo copy of your passport someplace else in your luggage.

Yellow Fever card

When you get your immunization for yellow fever they will give you a yellow card to prove you’ve had it. The card also has places on it to fill in your other immunizations so you can have an accurate records. While the Tanzanian officials won’t ask to see your card, it’s good to have it with your passport for easy reference if needed.

Cash for tips, souvenirs,

Amount is up to you, most people bring about \$500 - \$800 each. Remember tips, souvenirs, tabs in camps etc. Better safe than sorry. Remember - good idea to hide in several places but remember where all your “stashes” are! BRING LOT’S OF ONES!

Credit card

Remember there is limited usage and Amex and Diners are not accepted. However, the camp in OI Pejeta and the Mara are 5 star so they probably will accept Visa and MC. Not sure about Discover.
